The download you received is a copy of an original document held by The National Archives, London, England, in the collection of the High Court of Admiralty (HCA). This document is one of many records giving proof of early modern transmaritime and transcontinental entanglements. It survived due to the naval powers' common practice of prize taking in times of war.

The digital representation of the archival record and the describing metadata were produced by the Prize Papers Project, and presented by the project's online portal to the collection www.prizepapers.de.

The project is a British-German collaboration between the Göttingen Academy of Sciences and Humanities (Göttingen, Germany), the Carl von Ossietzky University (Oldenburg, Germany), The National Archive (London, England), The German Historical Institute London (London, England/ Germany) as well as the Head Office of the GBV Common Library Network of the German States Bremen, Hamburg, Mecklenburg-Vorpommern, Niedersachsen, Sachsen-Anhalt, Schleswig-Holstein, Thüringen and the Foundation of Prussian Cultural Heritage.

It is funded within the Academies Programme of the Union of the German Academies of Sciences and Humanities.

The aim of the Academies Programme is to retrieve and explore European cultural heritage, to make it accessible in and highlight its relevance to the present, and to preserve it for the future.
